

THE GREEN VISION

HORTICULTURE • GARDENING • JARDINAGE

PRESS RELEASE
For immediate publication

Four Canadian leading horticultural distributors – C Y Grower Supplies, The Halifax Seed Company, HJS Wholesale and TERIS Supply Services - have formed an independent organization called CANADIAN GREENLIFE SOLUTIONS INC.

(Laval, June 20th, 2011) Formed in direct response to continual changes within the industry, GREENLIFE's mission is to promote horticulture and gardening throughout Canada. Greenlife's goal is to bring representation and expertise to our industry, while bringing value to the horticultural industry with its purchasing power. Greenlife serves as a nationwide Canadian pipeline of distribution for manufacturers in addition to developing its own line of value added products.

The Halifax Seed Company Inc. serves **Atlantic Canada**. Established in 1866 Halifax Seed is Canada's oldest continuously operating family owned Seed Company. TERIS Supply Services Inc. represents the **Quebec** region. established by Fernand Corbeil in the 1960s, the company has benefited from a significant entrepreneurial tradition and many years ago established a solid reputation for honesty and transparency. It is a company that listens to its customers and cares about their success. HJS Wholesale Ltd, distributes across the **Prairies**. HJS Wholesale is well known for innovative products and marketing concepts. Their success exists due to their focus on customer service. Founded in 1981, they celebrate 30 years as the premier distributor of greenhouse, nursery, landscape and indoor garden products. C Y Grower Supplies services **British Columbia**. Founded in 2001, this young company has quickly established a reputation of providing nursery and greenhouse growers with quality products at competitive pricing. This all backed with first rate, honest service provided by staff with well over 50 years of experience in the horticulture industry.

Greenlife is organized according to a one-stop service model which will meet the growing demand for a more complex range of support services that are beyond simply supplying specialized products. GREENLIFE will enable C Y Grower Supplies, Halifax Seed, HJS Wholesale and TERIS Supply Services – dominant distributors in each of their respective sales regions – to work with leading manufacturers to increase efficiency and accuracy in the supply chain.

SERVICES AND PRODUCTS

There are two basic components to Greenlife operations: provide products & equipment along with superior technical support. The combination of the two makes Greenlife a leader in its industry.

Support services

Procurement professionals with specialized systems skills, Greenlife managers can supply you with expert advice.

THE GREEN VISION

HORTICULTURE • GARDENING • JARDINAGE

Products and equipment

With over 5,000 active customers, Greenlife is Canada's leading wholesaler of horticultural and gardening products and equipment. Its catalogue of over 30,000 products, available through a network of sales representatives and on the Web, covers every single greenhouse, nursery, hydroponics or general agricultural need: pots and containers, garden accessories, potting soils, fertilizer, decorative products, tools, greenhouse covers, structural components, heating, ventilation, sprinkling, irrigation, spraying and lighting systems, monitoring devices, and more.

A GREEN COMPANY

Greenlife will be known for its commitment to environmentally friendly actions all across Canada. In addition to carrying a wide range of natural, biodegradable "green" products, it's members have set up an innovative programs to recycle plastic pots and containers, ground covers, irrigation tubing and greenhouse films in order to reduce its environmental footprint. This ambitious initiative—called the "EnviroPots Solution" in Quebec and "Blooming Good Idea Closed Loop Recycling" in Manitoba—has gained Greenlife members a number of honours.
